

Summary of revised MODIFI components and final revision decisions based on Round 2 results

Revised MODIFI component	Final revision decision based on Round 2 results	How the component was revised
MODIFI Introduction		
Overview	Revised	· Moved content from later in MODIFI to this section—the content describing the participatory, culturally responsive nature of MODIFI
Definitions	Revised	· Added a definition of adaptation · Used a different example when defining intervention function and intervention form · Added an example intervention function/form table · Reorganized outcomes into clearer sections
Prerequisites	Retained	· N/A
MODIFI Step 1		
Learn about the users	Revised	· Integrated more participatory language · Added that people applying MODIFI likely are primary or secondary users themselves
Learn about the local context	Retained	· N/A
Identify key information about the intervention	Revised	· Added that often core functions are not identified by intervention developers · Added examples of intervention materials to reference · Added the suggestion to reach out to developers when possible
MODIFI Step 2		
Co-design description	Revised	· Moved content from this section to the MODIFI Introduction—the content describing the participatory, culturally responsive nature of MODIFI

How to co-design	Revised	· Added steps for how to consider possible unintended consequences · Added steps for how to continue to iterate until the adaptation is ready for evaluation
MODIFI Step 3		
Testing whether or not the adaptation works	Retained	· N/A
What's Next?		
Next steps	Revised	· Added the recommendation for further evaluation and iteration if resources allow
